

## The French Broad Hustler

M. L. SHIPMAN, Editor  
T. R. BARROWS, Associate Editor  
HENDERSONVILLE, N. C.

Entered at the Postoffice at Hendersonville, N. C., as mail matter of the second class.

Write it "1907" for a while.

The legislature convenes next Wednesday for a two months' session.

The Christmas festivities are over again. Now for business awhile.

They do say that Henderson county is to have a new road law. This is not bad news by any means.

The county roads are reported as being "something fierce." Well there's a better day coming, so "they say."

How about the "good resolutions" you made on Monday? Better paste a copy in your hat as a gentle reminder.

Let us continue to talk "Hendersonville." She is destined to become one of the country's greatest resort places. Pluck and perseverance will tell the tale.

A number of new industrial enterprises are booked for Hendersonville in the near future and the new year promises great things for this progressive little city.

If you expect to kick about the provisions of the "contemplated" road law for this county, now is the time to do it. Don't wait until every feature of the proposed measure has been agreed upon and then begin to knock it.

And Blackburn will contest the election of Mr. Hackett. Well, that's just like men of his stripe. He has no grounds upon which to base hopes of success except in a partisan majority in Congress. But he will be left this time.

Secretary Taft "is in the hands of his friends" and intimates that if necessity requires he will become a candidate for the presidential nomination. Teddy will hardly agree that the big secretary ought to run.

The Roosevelt Third-Term League has been organized in Chicago for the purpose of boosting the President for the republican nomination in 1908. The leaguers declare that Mr. Roosevelt has no right to decline a positive demand of the people and that his acceptance has become a public necessity. Perish the thought!

The State is going forward by leaps and bounds in an industrial way, says the Bureau of Labor and Printing, in a review of manufacturing plants appearing elsewhere in The Hustler today. This is gratifying news and places the Old North State well in the lead along the line suggested among the sisterhood of States in the South.

The drafting committee selected by the Good Roads Association is said to be hard at work on their report which is to be presented at the second mass meeting, called for next Saturday. It is hoped that citizens of the county, regardless of political affiliations, will turn out en masse, since definite conclusions are to be reached at this meeting. Let everybody take a hand. We want a law that will give general satisfaction.

The Hustler wishes each and everyone of its readers a joyous and prosperous new year. May the fondest expectations for 1907 be more than realized, is our hope for all. We shall endeavor constantly to merit a continuance of the generous patronage accorded to both the newspaper and job department of this office during the years of its existence, by serving our constituents promptly and accurately henceforth.

## BLACKBURN WILL CONTEST.

E. Spencer Blackburn of North Carolina announced Saturday that he would contest the election of Richard A. Hackett, as a member of the sixtieth congress from the eight congressional district of that state.

Congressman Blackburn has written a letter to his opponent at Wilkesboro, N. C., notifying him of the action he has taken. In this letter Mr. Blackburn says that although the election returns show that his opponent was given a majority of 1,066 votes, he was not lawfully elected.

Mr. Blackburn charges that gross irregularities, illegalities, frauds and bribery were committed by partisans of Mr. Hackett, and that the conduct of the election officers at the voting precincts was unjust, wrongful and unlawful, so says the Associated Press.

Of course he will contest. That is a habit republicans have long since been afflicted with and death only has ever been prevented some of them from carrying the disreputable practice to a final conclusion. We do not mean to say Blackburn's life is in danger, but have in mind certain contest cases which terminated in that way from natural causes. Blackburn was fairly beaten. He knows that, but wants to steal the seat and remain in the lime light.

But he cannot succeed by fair means. Mr. Hackett has been chosen as the people's representative by a decisive majority and is prepared to answer all of Blackburn's foolish and groundless charges to the satisfaction of all honest men. Blackburn is aware that he has no resemblance of excuse for his actions in this matter. However, the republicans have a majority in the House and he is relying on partisan unfairness, similar to that which robbed Mr. Crawford of his seat in 1899. Here's trusting and believing that he may meet the defeat he justly merits.

The Jackson County Journal has moved from Webster to Sylva in order to receive the benefits of railroad facilities. The Journal is a nice weekly publication and we wish them many happy returns.

Blackburn has not strengthened his case by base reflections upon Governor Glenn and other Democratic officials. They are men whose public and private acts are above reproach and everybody knows it. E. Spencer is playing to the galleries, but the scheme is likely to turn out differently from what he expects.

M. L. Shipman, editor of the Hendersonville Hustler, has been chosen by Congressman-elect W. T. Crawford of the Tenth district as his private secretary. Mr. Shipman was campaign manager for Congressman Gudge during both of his campaigns and has been a very close friend and co-worker with Mr. Crawford during his canvass for the nomination and election. We think Mr. Crawford has made a wise selection as there is no better a Democrat or a more loyal worker than M. L. Shipman. —Marshall Record.

The State Board of Agriculture, through the kind offices of Mr. A. Cannon, member from the tenth district, has caused the withdrawal of cattle quarantine restrictions heretofore existing along the line between this county and Polk. The new order releases Polk county from all former restrictions and leaves her stock raisers free to transport cattle across the Blue Ridge. This result will benefit many farmers residing in the eastern section of Henderson county and Mr. Cannon is being warmly commended for the distinct service rendered to his people in this important matter. Being himself a farmer, he understands their needs and brings things to pass.

## A New Maxim.

When you're feeling bad and blue, And the Sun has lost its rays There's a maxim quaint and new, "A little Christian Science goes a long way."

Heard a preacher shouting, The world will end soon sure, Quoting Scripture and doubting He needed the "faith Cure."

We all must die, the world will end, In God's appointed hour, There's no use to worry, my friend, A merciful God's in power.

"A Christian Scientist," isn't that queer? I'm one to a certain degree, Faith, hope, Sunshine and prayer, Is always good for me.

## MADE FROM NATIVE ROOTS.

### SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women. Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

Mrs. Paine's opinion is shared by a majority of the inhabitants of this country.
